The Following Notices Were Issued from the Office of the Postmaster General

HARRY S. NEW, POSTMASTER GENERAL

POSTMASTERS CAUTIONED TO DEPOSIT SURPLUS FUNDS PROMPTLY

The attention of postmasters, more especially those at district offices, is called to the warning published as paragraph 4, section 121, Postal Laws and Regulations, 1924, reading as follows:

"Any postmaster who fails to deposit his surplus funds at the designated time shall be held liable for any loss that may result from such delay."

In numerous claims of postmasters for credit on account of loss by burglary, fire, and in transit, it has been necessary to disallow the credit claimed, in whole or in part, because surplus funds were improperly on hand at the time of the casualty. Order No. 3756, dated January 6, 1926, is here reproduced for any postmasters who failed to insert it in their copy of the regulations at the time:

"Paragraph 3, section 121, Postal Laws and Regulations, edition of 1924, is amended to read as follows:

"Postmasters at third-class offices shall deposit surplus funds with the central accounting office whenever the amount on hand during the quarter equals \$100 and postmasters at fourth-class offices whenever the amount on hand equals \$50. Postmasters at district offices are permitted to retain such sums as may be required to meet any authorized disbursements of the office, which are due to be made within 15 days, except at the close of each quarter, when the exact amount due to balance the account must be remitted. Remittances of cash shall consist of even dollars only and not include fractions of a dollar except at the end of a quarter. Small coins may be used, if necessary, in making remittances, but should amount to even dollars. When drafts, checks, paid money orders, etc., are used in making remittances the total of the remittance need not necessarily be in even dollars."

Remittances shall not be delayed:

(a) To secure notes of large denominations, or to exchange coin for notes. (Sec. 115, Postal Laws and Regulations, 1924.)

(b) Because part of the balance as shown by the cashbook is in the form of paid money orders or negotiable paper.

(c) For the purpose of cashing Government checks anticipated to be presented.

(d) For the purpose of paying money orders, unless the postmaster has justifiable reason to believe that orders will be presented for payment within 15 days in excess of the probable receipts of the office. The probable receipts must be carefully estimated and excessive amounts of funds must not be retained. Postal funds for the payment of money orders may be secured in the manner prescribed by paragraphs 44 and 45 on page 98, United States Official Postal Guide, July, 1927.

Remittances shall be made by first registered mail after the close of business, unless express instructions have been issued to dispatch registered mail on certain trains to the exclusion of other trains.

While paragraph 47 on page 54, United States Official Postal Guide, July, 1927, directs third and fourth class postmasters to render their accounts within

three days after the close of the quarter accompanied with sufficient cash items to balance them, if the balance shown by the cashbook is in excess of \$50, the remittance should be made on the day following the close of the quarter even though the account may not be ready for dispatch until the third day; otherwise in offices where the volume of money-order business is large, a considerable sum is needlessly exposed to the danger of loss by fire, burglary, or otherwise.

Fourth-class postmasters are permitted to withdraw accrued compensation at any time, but if not withdrawn and so recorded in the cashbook, the balance shown by the cashbook, if in excess of \$50, must be considered as surplus and as due to be remitted for deposit.

Attention of postmasters at first and second class offices is also called to paragraphs 47, 48, and 49 on page 98, United States Official Postal Guide, July, 1927.

PROTEST STICKERS UNMAILABLE

The attention of all postmasters and postal employees is called to the fact that the adhesive stamp being placed upon the outside of mail by some patrons of the service bearing the motto "Protest against marine rule in Nicaragua," sometimes called the Sandino stamp, renders such matter unmailable under section 471 of the Postal Laws and Regulations.

Doubtless patrons placing this stamp upon their mail, or at least some of them, did not realize that such action made their letters unmailable and subject to destruction at the Dead Letter Office. For this reason postmasters are hereby directed to decline to receive mail bearing these stamps. Should mail so defaced bearing return addresses be received, it should be returned to the sender with the information that the stamp bearing the motto quoted renders it unmailable. Mail not bearing return cards should be treated as any other unmailable matter.

AMENDMENTS TO THE POSTAL LAWS AND REGULATIONS

The amendments are printed on one side of pages at the back of the supplements, and should be clipped therefrom regularly each month, as they are intended for pasting directly opposite the sections amended or for pasting in a blank book, the margin of each section amended being marked with the number of the insert affecting that particular section. The following subjects are treated in the amendments published this month:

Insert No.

- 317. Classification and salaries.
- 318. Liquids, explosives, insects, etc., in the mails.
- 319. Damaged transit pouches and sacks.
- 320. Backstamping, registered, special-delivery mail, motion-picture films.
- 321. Insecure or badly located rural boxes.

 Coffeyville, Kans., February 22, 1928, Kansas State Association.
 Omaha, Nebr., February 22, 1928, Nebraska State Association.

Postmasters at post offices having city delivery and village delivery service in the States mentioned above are authorized to grant leave of absence to all city or village delivery carriers, who are members of the above association, whose services may be spared without detriment to the service, upon application in the usual manner, for as many days as may be necessary, not to exceed 30, to enable them to attend these conventions at the places and on the dates mentioned. Such absence may be charged to the employees' annual leave, or, if necessary, leave without pay may be granted.

STATE CONVENTIONS OF THE NATIONAL FEDERATION OF POST OFFICE CLERKS

New Britain, Conn., February 22, 1928, Connecticut State Federation.
 Coffeyville, Kans., February 22, 1928, Kansas State Federation.
 Jackson, Miss., February 23, 24, 25, 1928, Mississippi State Federation and Louisiana State Federation.
 Omaha, Nebr., February 22, 1928, Nebraska State Federation.
 Elizabeth, N. J., February 22, 1928, New Jersey State Federation.

Postmasters at post offices in the States mentioned are authorized to grant leave of absence to employees who are members of the above Federation of Post Office Clerks, whose services may be spared without detriment to the service, upon application in the usual manner, for as many days as may be necessary, not to exceed 30, to enable them to attend the conventions listed above in the places and on the dates mentioned. Such absence may be charged to the employees' annual leave or, if necessary, leave without pay may be granted.

ADOPTION OF NEW FORM—APPLICATION FOR EXCHANGE OF TOURS

A new form, 1539, to be used by employees in making application for, and supervisors in approving, exchanges in tours has been designed and adopted by the department for use in offices where the receipts amount to \$500,000 or more per annum, and is now available upon requisition from such offices.

POST OFFICE PERSONNEL—BONDS

It has come to the department's attention that several bonding companies have requested postmasters to return bonds executed by them covering employees where new bonds have been filed in their place or the employee has been separated from the service.

Bonds of employees must be retained in the files of the post office and *under no circumstances* should they be returned to the bonding company.

BACKSTAMPING AIR MAIL

Postmasters' attention is invited to the following notice which appeared on page 11 of the August, 1925, supplement:

"All post offices at the points of landing only receiving mail by air mail transportation will speedily backstamp the same. This includes not only the air mail which is received for delivery at the post office at the point of landing but also the air mail which is received at any point of landing to be dispatched to other post offices by train or other means of transportation. Such backstamp should give the date and hour of receipt.

"Post offices not at points of landing on the air-mail route or routes, but which may receive air mail by dispatch from points of landing on the air-mail route or routes by other means of transportation, will not backstamp such air mail.

"To illustrate: The Chicago post office receiving air mail, whether for distribution in Chicago or to be dispatched by train to Springfield, Ill., will backstamp the same, but it will not be backstamped again when it reaches Springfield."

The instructions contained in this notice are still in full effect and every postmaster whose office is affected will take steps to see that they are fully carried out.

COMPLETE FORWARDING ADDRESS

Failure on the part of postmasters and postal employees at both large and small offices when forwarding mail to furnish a complete forwarding address often results in the delay in delivery of such mail as it is necessary to give this matter directory service in the office of address, and in a good many instances where the addressees are newcomers and have neglected to file their addresses with the post offices, such mail necessarily has to be returned for better address.

It is desired that postal employees having to do with the forwarding of mail indorse all such mail with the complete address showing the street number, general delivery, number of rural route or post office box, whatever the case might be, in order to insure the prompt and expeditious handling of such mail.

SPECIAL HANDLING PARCEL POST

It should be understood that special handling parcel post does not lose its identity as first-class mail upon arrival at offices of destination. The act of February 28, 1925, provides that special handling parcel post shall receive the "same expeditious handling, transportation, and *delivery* accorded mail matter of the first class." This law, it will be noted, is mandatory.

In this connection attention is invited to pages 2, 3, and 4 of the April, 1925, supplement, which clearly indicates the manner in which the department desires special handling parcel post delivered upon arrival at the office of destination. These instructions specifically provide that at post offices having delivery service, postmasters shall deliver on the day of receipt all special handling parcel post which is in their offices ready for delivery at the hour the last foot carrier delivery starts out from the post office on that day.

Postmasters must closely follow these instructions and should avoid erroneously informing patrons that special handling means only transportation of parcel post as first-class matter between the points of origin and destination and that it does not include the same delivery service accorded first-class mail.

Postmasters and supervisors will please see to it that all postal employees under their jurisdiction, who at any time during the day handle or deliver parcel post, carefully read, understand, initial, and comply with these instructions.

DIVISION OF RAILWAY MAIL SERVICE

DAY-OLD CHICKS

The attention of all postal employees is again called to the fact that shipments of day-old chicks require very careful handling while in transit in the mails and the following rules should be strictly observed:

See that all shipments are definitely and completely addressed.

Do not give food or water to chicks while in transit.

Dispatch as quickly as possible and deliver to addressee promptly upon arrival at office of destination.

Do not place in mail bags or cover with other mail matter.

Always keep parcels right side up and as nearly level as possible.

Do not expose to heat or cold, or place near hot pipes, stoves, or radiators.

Protect them from all extremes of weather.

Do not change the ventilation by punching additional holes in the containers, as it is the shipper's duty to provide proper ventilation.

Caution mailers as to the possibility of shipments made on Friday and Saturday reaching office of destination on Sunday, when no Sunday service is performed, thus necessitating the chicks remaining in the post office until the following morning. The same is true when shipments are made one or two days before a holiday.

Remember that day-old chicks are mailable only when the addressee can be reached before the chicks are 72 hours old, and that every shipment must bare a special handling stamp and give the same expeditious handling, transportation, and delivery accorded to mail of the first class.

DIVISION OF FOREIGN MAILS

SPECIAL-DELIVERY SERVICE WITH ARGENTINA AND BRITISH GUIANA

Ordinary and registered articles in the regular mails (letters, post cards, printed matter, commercial papers, and samples) addressed for delivery in Argentina and British Guiana will be given the benefit of special-delivery service when prepaid 20 cents, in addition to the regular postage, by United States special-delivery or other stamps affixed to each article.

The envelopes or covers of articles intended for special delivery in Argentina and British Guiana should have affixed labels reading "Expres (special delivery)." However, until a supply of the said labels can be secured from the Fourth Assistant Postmaster General, Division of Equipment and Supplies, the articles should in all cases be marked in red ink "Expres" directly below but never on the stamps.

Insufficiently prepaid articles intended by the senders for special delivery in Argentina and British Guiana posted in letter boxes and drops, should be marked by postmasters "Not in special-delivery mail" and be dispatched onward to destination as ordinary mail matter whenever such articles can not be returned to the senders for the deficiency in fee without seriously delaying the dispatch thereof.

Articles mailed in Argentina and British Guiana which are intended for special delivery in this service will be marked "Expres" or have labels affixed bearing that word.

Special-delivery articles received from Argentina and British Guiana will be subject to the same conditions in their delivery as special-delivery articles in the domestic service, attention being invited especially in this connection to section 1043, Postal Laws and Regulations, 1924, concerning the holding at the post office, to be called for by the addressee, of special-delivery mail which is registered and is believed to contain large sums of money or securities which can not be delivered without unusual risk.

SPECIAL-DELIVERY SERVICE WITH ECUADOR

Until further notice is given, the special-delivery service from this country to Ecuador will be limited to within the carrier-delivery limit of the cities of Quito and Guayaquil.

The notice of this office dated December 21, 1927, which bore the same caption as above and was published on page 10 of the January, 1928, Postal Guide is modified accordingly.

DUTIABLE ARTICLES GENERALLY PROHIBITED IN THE REGULAR MAILS TO GREAT BRITAIN AND NORTHERN IRELAND

The postal administration of Great Britain and Northern Ireland has informed this office that the transmission of dutiable articles in the regular mails to that country is prohibited, with the sole exception of bona fide trade samples of certain articles liable to customs duty which are admitted in the sample mails under special conditions.

Accordingly, the notice of this office dated November 30, 1927, which bore the caption "Dutiable articles in the letter mails to Great Britain and Northern Ireland" and was published as change 105 on page 51 of the December, 1927, Postal Guide, should be disregarded and the sixth paragraph of the subitem "Prohibitions" on page 292 of the said July, 1927, Postal Guide should be changed to read as follows:

"Dutiable articles except bona fide trade samples of certain articles liable to customs duty as stated in this subitem 'Prohibitions.' Coin, gold, silver, jewelry, and precious articles, unless sent in registered letters. Unregistered letters found to contain coins, etc., are compulsorily registered before delivery. Fireworks of every description (including sparklers and Christmas crackers). Samples of tea are admitted provided that they are packed in accordance with sample post regulations, do not exceed 8 ounces in gross weight, and are plainly marked to show the nature of the contents, and on payment of 1d. customs charge on packets over 3 ounces in gross weight."

FEE, IN ADDITION TO THE REGULAR POSTAGE, TO BE PAID FOR THE TRANSPORTATION IN THIS COUNTRY BY UNITED STATES AIR MAIL SERVICE OF ARTICLES IN THE REGULAR MAILS WHICH ARE MAILED IN THIS COUNTRY FOR DELIVERY IN FOREIGN COUNTRIES OR ARE RECEIVED FROM FOREIGN COUNTRIES

Articles in the regular mails which are mailed in this country for delivery in foreign countries and are to be transported in this country by United States air mail service will be subject to an air mail fee of 8 cents for each half ounce or fraction thereof, *in addition to the postage applicable to such articles in the ordinary mails for the country of destination.*

The same air mail fee, *in addition to the regular postage*, will be applicable to articles mailed in foreign countries to be transported in this country by United States air mail service.

The postage plus the air mail fee will be figured as follows, for articles mailed in this country:

Letters (when the ordinary rate is 2 cents an ounce or fraction), 10 cents up to one-half ounce, 18 cents up to 1 ounce. Add 10 cents thereafter for the first half ounce of each ounce and 8 cents for the second half ounce of each ounce.

Letters (when the ordinary rate is 5 cents for the first ounce or fraction and 3 cents for each additional ounce or fraction), 13 cents up to one-half ounce, 21 cents up to 1 ounce, 32 cents up to 1½ ounces, 40 cents up to 2 ounces. Add 11 cents thereafter for the first half ounce of each ounce and 8 cents for the second half ounce of each ounce.

Post cards (when the ordinary rate is 2 cents for each single card), 10 cents for each single card, 20 cents for each reply-paid card.

Post cards (when the ordinary rate is 3 cents for each single card), 11 cents for each single card, 22 cents for each reply-paid card.

Printed matter (to all countries), 9 cents up to one-half ounce. Add 8 cents for each additional half ounce up to 2 ounces and thereafter add 9 cents for the first half ounce of each 2 ounces and 8 cents for each additional half ounce of each 2 ounces.

Samples (to all countries), 10 cents up to one-half ounce. Add 8 cents thereafter for each half ounce up to 4 ounces and thereafter add 9 cents for the first half ounce of each 2 ounces and 8 cents for each additional half ounce of each 2 ounces.

The second paragraph of the notice of this office, dated December 9, 1927, which bore the caption "Provisions concerning the transportation by United States air-mail service of articles in the regular mails for foreign countries, effective January 1, 1928, under the provisions adopted September 10, 1927, by the International Air Mail Conference of The Hague," and was published on pages 13 and 14 of the January, 1928, Postal Guide, is modified accordingly.

POSTAGE RATES ON ARTICLES ADDRESSED TO DIPLOMATIC AND CONSULAR OFFICERS IN FOREIGN COUNTRIES SENT IN CARE OF THE STATE DEPARTMENT AT WASHINGTON, D. C.

Information has been received from the State Department that mail articles addressed to diplomatic and consular officers located in foreign countries in care of the State Department are being received prepaid at the domestic rate of postage.

The fact that articles of this nature are sent in care of the State Department does not, in any way, affect the rate of postage to be prepaid and postmasters will, in all instances, see that the appropriate rate of postage applicable to the country concerned is charged regardless of the manner in which the article is transmitted to destination.

SPECIAL-DELIVERY FEE ON LETTERS FOR CANADA IS 20 CENTS

The postal administration of Canada has again informed this office that special-delivery letters mailed in this country for Canadian addressees are in many cases insufficiently prepaid, it being stated that fully 50 per cent are prepaid only 10 cents in addition to the regular postage. As set forth under the item "Canada," on page 237 of the July, 1927, Postal Guide, the fee for the special delivery of letters and articles paid at the letter rate which are addressed for delivery at any Canadian post office listed on the said page is 20 cents *in addition to the regular postage*.

**USE OF DOUBLE OR REPLY POSTAL CARDS REQUESTING INFORMATION OF

Referring to the last paragraph of Order No. 6090, amending paragraph 6, section 457, Postal Laws and Regulations, with regard to information concerning the number of rural routes and number of boxes served by each carrier, or the number of post-office boxes in use at offices not having city letter-carrier service, postmasters are advised that while it is contemplated that persons or concerns requesting such information will furnish a self-addressed reply envelope bearing the necessary postage, double or reply postal cards may be used for the purpose indicated.

OLD FREIGHT BILLS SUBJECT TO POSTAGE AT FIRST-CLASS RATE

It has come to attention that packages of old freight bills filled out in handwriting or typewriting, and carbon copies thereof, sent to traffic bureaus for auditing are erroneously being accepted for mailing at some post offices as fourth-class or parcel-post matter, while under the provisions of section 398, Postal Laws and Regulations, such freight bills are first-class matter and subject to postage at the rate of 2 cents an ounce or fraction of an ounce.

Postmasters are requested to see that the proper rate of postage is required on packages of such matter.

SMALL AND IRREGULAR-SIZED GREETING CARDS AND ENVELOPES

Gratifying results have been obtained through the cooperation of the manufacturers and mailing public with respect to the elimination of the use of the objectionable small and irregular-sized envelopes and greeting cards. This has resulted in greatly speeding up the mails during the recent Christmas rush and the department desires to express its appreciation of the efforts of all concerned in helping to accomplish this result.

While postal employees have long been aware of the advantages of standard sizes of envelopes, folders, etc., for mailing purposes, the users of the mails themselves naturally are not in a position to appreciate these advantages unless they are called to their attention from time to time. Postmasters should, therefore, keep this in mind and continue their efforts along this line. In the case of unusually large envelopes and cards the special attention of mailers should be called to the fact that the edges protrude when they are tied in with other mail and are thus liable to be bent or mutilated.

Postmasters may submit requisitions for supplies of the new coil to meet the local public demand, but no stock should be ordered until it is definitely known that stamping or affixing equipment in use locally is of such design to operate successfully with coils of the larger size and reversed winding.

LOCAL ADDRESS ON SPECIAL-REQUEST ENVELOPES

The instructions of the department require that special-request envelopes printed for post offices having free-delivery service shall include the local address of the purchaser in the return card, in order to insure prompt and correct return of undeliverable letters to the writer. Regardless of this rule numerous requisitions for envelopes to be printed without the local address are being received in the department daily, in some cases with an explanation by the postmaster that the purchaser does not desire the local address included or that such designation can not be supplied.

Because of the manifest value to the Postal Service of having complete return cards on all mail matter, the department can not make exception to the requirements of a local address, regardless of the fact that in some instances the location of the purchaser may be so well known to post-office employees as to apparently make a local address unnecessary. It would be wholly impracticable to omit the local address for one patron at a post office and require it of others. Furthermore, at every post office where mail is delivered by carrier there must necessarily be some point of delivery which should be available for use as the local address.

While the name of a building and room number therein may be included in the return card, the street address of the building should also be shown and is a definite requirement on window envelopes.

Postmasters and postal employees at free-delivery post offices who accept printed envelope orders from the public and prepare requisitions are urged to see that the requirements applying to the local address are fully met before requisitions are transmitted to the department.

DIVISION OF REGISTERED MAILS

RIO GRANDE, TEX., AUTHORIZED TO EXCHANGE REGISTERED MAIL, INCLUDING REGISTERED C. O. D. MAIL, WITH CIUDAD CAMARGO, TAM., MEXICO

An exchange of registered mail, including registered C. O. D. mail, has been authorized between Rio Grande, Tex., and Ciudad Camargo, Tam., Mexico, and these offices should be added to the list of United States and Mexican post offices authorized to exchange C. O. D. mail, published on page 23 of the November, 1925, Postal Guide.

RETURN OF POUCH-BILL COUPONS IN CONNECTION WITH AIR MAIL REGISTRY DISPATCHES

Referring to the instructions published on page 17 of the December, 1927, Postal Guide under the caption "Pouch-bill coupons describing registered articles dispatched in registered jackets and rotary-locked pouches not to be returned unless some discrepancy or irregularity exists," postmasters are advised that these instructions are not to be construed as prohibiting the return of pouch-bill coupons in those instances where the return of such coupons is required in the detailed instructions now sent to postmasters in regard to the handling of registered mail on contract air mail routes, extracts from which are quoted below for the information of all postal employees concerned:

"Post offices and postal employees at air-mail fields on the route making dispatches of rotary-locked pouches or outside registered articles too large for inclosure in the rotary-locked pouches *direct* to another post office or to a postal employee stationed at another air-mail field on the route will be furnished a receipt for the dispatch *in its made-up form* by the post office, or postal employee at the air-mail field, to which the dispatch is made *direct*. This receipt will be given to the post office or postal employee at the air-mail field making the direct dispatch by the use of the coupon of one copy of the manifold bills which are sent with the dispatch in its made-up form. Any irregularities or discrepancies noted in connection with the dispatch in its made-up form will be reported on this coupon.

"It is further required that post offices and postal employees *making up* rotary-locked pouches for post offices or for air-mail fields on the route shall be furnished a coupon receipt for the *contents* of the rotary-locked pouches, including any outside registered articles too large for inclosure in the pouch also described on the pouch bill inside the pouches, and any discrepancies or irregularities noted in connection with the contents of the rotary-locked pouch or the outside registered pieces must be promptly reported to the office making up the pouch on this coupon."

The instructions quoted above regarding the return of pouch-bill coupons are equally applicable to postmasters or employees of the Railway Mail Service who, in accordance with instructions received from officials of the Railway Mail Service, have occasion, because of weather conditions or other causes, to open and dispose of the contents of "trained rotary-locked air mail pouches" when such action will advance the dispatch of the mails involved.

The manifold coupons of the bills should of course be returned promptly in order to avoid the necessity of tracers or letters of inquiry being sent by postmasters to whom coupons are to be returned.

FIRST-CLASS MATTER NOT TO BE ACCEPTED FOR INSURANCE OR TRANSMISSION AS C. O. D. MAIL

The department has recently received a great many reports of the improper acceptance of first-class matter for insurance or transmission as C. O. D. mail. These reports indicate that some postmasters and postal employees are under the erroneous impression that first-class mail can be insured or sent C. O. D.

The domestic insurance and C. O. D. services are restricted by law to mailable matter of the third and fourth classes. First-class matter can not be sent as insured or C. O. D. mail, but may be registered and indemnity is payable therefor in case of loss, rifling, or damage. Second-class matter can not be insured or sent C. O. D., but may be registered. However, no indemnity is provided for registered second-class matter. Third-class matter may be sent as registered, insured, or C. O. D. mail. The amount of indemnity payable in connection with registered matter of the third class is limited to \$25.

When matter of the first class is inclosed with matter of the third or fourth class, the postage on the parcel should be charged at the first-class rate. Such parcels can not be insured or sent C. O. D., but may be registered if sealed.

Attention in regard to this matter is invited to amended sections 861 and 1072, Postal Laws and Regulations of 1924, and articles 39 and 40, page 111; article 135, page 139; and article 137, page 140, of the July, 1927, Postal Guide.

When first-class mail erroneously accepted for insurance or transmission as C. O. D. mail is received at the office of address, it should not be withheld from delivery but should be treated according to the regulations governing this kind of mail. First-class mail erroneously insured should be delivered upon payment of the deficiency in postage, if any, and the receipt of the addressee obtained; and first-class mail improperly accepted for transmission as C. O. D. matter should be delivered upon payment of the deficiency in postage, if any, and the C. O. D. charges, and the amount due the sender remitted to him in the usual manner. However, in such cases the wrapper of the parcel should be obtained from the addressee and transmitted to the Third Assistant Postmaster General, Division of Registered Mails, with a report of the matter, in order that the irregularity may be brought to the attention of the postmaster at the office of mailing with a view to preventing a repetition thereof.

NEW FORM 3849-c "INQUIRY FOR THE NUMBER OF AN INSURED PARCEL"

A new card form, known as Form 3849-c, has been provided for use in making inquiry of the postmaster at the office of mailing regarding the number of an insured parcel, when the number is omitted or is wholly or partly indecipherable.

Form 3849-c will be furnished only to postmasters at offices of the first class who file receipts for insured mail in accordance with the last two digits of the insured parcel number as outlined in the notice entitled "New method of filing receipts for insured parcels delivered, forwarded, or returned at all offices of the first class," appearing on pages 23 and 24 of the September, 1927, Postal Guide. Postmasters who follow this method of filing receipts for insured parcels should make requisition for a three months' supply of Form 3849-c on the Fourth Assistant Postmaster General, Division of Equipment and Supplies.

At the present time considerable difficulty is being experienced by postmasters at offices of mailing, particularly at the larger offices, in attempting to locate the mailing records of insured parcels, because of the failure of the postmasters instituting inquiries to furnish sufficient particulars of the parcels.

When the number of an insured parcel is omitted or is illegible, the delivering employees should note on Form 3849-b (notice of arrival of insured and C. O. D. mail and receipt for insured mail) the name of the post office and State of origin, station or branch, if any, the name and street address of the sender and the date of mailing. All of this information should be placed on Form 3849-c when making inquiry of the postmaster at the office of mailing regarding the correct number of the parcel. If this is done in each instance, considerable unnecessary correspondence and time now spent in searching records will be eliminated.

INSURED PARCELS MUST BEAR THE SENDER'S NAME AND ADDRESS

The attention of this office has been called to the fact that an appreciable number of insured parcels are being dispatched to destinations which do not bear the complete names and addresses of the senders or the legible postmarks of the mailing post offices. This causes much inconvenience and annoyance, since the persons or firms receiving such insured parcels are unable to ascertain who sent them and give the senders proper credit, or if the parcels are undeliverable, their return to the senders can not be effected.

Postmasters are requested not only to impress upon their patrons the importance of correctly and legibly addressing insured parcels, but to instruct all postal employees concerned not to accept for mailing or insurance parcels which do not bear the legible and complete name and address of the sender, which should be preceded by the word "From." In this connection attention is invited to the requirements of article 150, page 143, of the July, 1927, Postal Guide, and the provisions of amended section 525, paragraph 1, of the Postal Laws and Regulations of 1924.

ILLEGIBLY COMPLETED C. O. D. TAGS

The department continues to receive reports regarding the careless manner in which the particulars on C. O. D. tags are filled in, and it is therefore considered necessary to again bring the matter to the attention of all concerned.

Article 196, page 151, of the July, 1927, Postal Guide provides in part as follows:

"The necessary particulars on C. O. D. tags should be filled in by senders in a clear, legible manner, with typewriter, ink, or indelible pencil. Ordinary lead pencil should not be used. C. O. D. parcels should not be accepted unless the tags are properly filled out."

Some reports submitted indicate that the C. O. D. number is written in lead pencil in such an illegible manner as to make it indecipherable. In other instances the number is omitted entirely. As a result, the postmaster at the office where the parcels are delivered is unable to state the C. O. D. number on the money orders issued, and also the post-office records are incomplete.

Postmasters will immediately give this matter appropriate attention with the postal employees concerned, and will also advise firms who apparently are lax in this respect that if their C. O. D. tags are not properly prepared the parcels will not be accepted for mailing, emphasizing the fact that carelessness in this matter will only serve to delay receipt by them of money orders for their C. O. D. parcels and that, on the other hand, cooperation will be mutually beneficial.

All violations of instructions on this subject should be reported to the Third Assistant Postmaster General, Division of Registered Mails, on Form 3826a.

Paragraph 4, section 920, Postal Laws and Regulations of 1924 is amended to read as follows:

"4. When, however, it is necessary for the protection of the registered matter, or to avoid its being materially delayed, a postmaster or a railway postal clerk may open the seam of a registered pouch or sack which is so damaged as to endanger its contents or has attached a lock which can not be opened. Appropriate note showing the action taken should be made on the bill received in the pouch and also on the coupon of the bill which in such cases should be returned to the post office or railway post office which made up the dispatch and note made on the bill to show disposition of the coupon. If any of the registered articles are damaged or missing report should be made to the inspector in charge. (See secs. 921 and 922.) Pouches and sacks which have been so opened should be sent, with locks attached, to the mail-equipment shops, Washington, D. C., for repairs." (See secs. 1437 and 1442.)
