BONDS OF ASSISTANT POSTMASTERS OF THIRD-CLASS POST OFFICES

The department is in receipt of a great many communications from postmasters of third-class post offices relative to the bonding of assistant postmasters. In this connection attention is invited to page 59 of the July, 1928, Postal Guide, paragraph 2 of which provides that "Central-accounting postmasters will handle all correspondence relative to bonds of assistant postmasters of third-class post offices."

Section 331, Postal Laws and Regulations, states that assistant postmasters of third-class post offices must be bonded, but they may be designated without the approval of the department as they have no civil-service status, unless the office has a money-order credit with the Treasurer of the United States. See section 304, Postal Laws and Regulations. Males under 21 years of age and females who are not of age under the laws of the State in which the office in question is located are not eligible for such designation at presidential post offices. All resignations of assistant postmasters should be filed with your central accounting postmaster.

Postmasters of third-class post offices are therefore instructed to address all inquiries relative to the bonding of assistant postmasters to the postmasters of their central-accounting post office. Where postmasters desire a bond from a clerk the same procedure should be followed. It is not necessary to secure departmental approval of the employment and resignation of clerks, but all persons appointed to such positions must be over 16 years of age and competent to perform the work delegated to them.

TEMPORARY EMPLOYEES—APPOINTMENTS AND BONDS

As it appears that some postmasters are placing a misconception upon the notice appearing on page 4 of the December, 1928, supplement, under the caption Temporary Employees—Appointments and Bonds, it is desired to state that these instructions are not to be construed to mean that it is no longer necessary for a postmaster to maintain the number of regular substitute clerks and carriers required to carry on normal substitute and auxiliary service.

It was intended that the instructions referred to should apply to the larger post offices, in particular, where on a number of occasions throughout the year it is necessary to employ substitute service in excess of the ordinary needs of the office. Postmasters must maintain an adequate force of regular substitute clerks and regular substitute carriers sufficient to provide for the needs of the service, but shall not employ a number so excessive that the earnings of the substitutes will be so reduced as to render their compensation inadequate or unattractive. At the smaller offices an adequate number of regular substitutes must likewise be maintained and if contingencies arise when additional substitutes are required, either periodical or otherwise, the postmaster should employ temporary substitutes for such time as may be absolutely necessary.

Postmasters are admonished in employing substitutes, either regular or temporary, to strictly adhere to the civil-service rules and regulations. Otherwise suspension of their accounts by the General Accounting Office may result.

PERSONNEL PROBATIONARY PERIOD

Postmasters at offices of the first and second classes are informed that services performed by regular substitute clerks and regular substitute carriers as special-delivery messengers, as indicated in a notice appearing on page 5 of the April,

1929, supplement, will be included in their probationary period of 1,224 hours of actual service.

After a substitute has performed 1,224 hours of service, either as a substitute, or as an auxiliary, or as special-delivery messenger, or has performed the combined total as substitute, auxiliary, and special-delivery messenger service of 1,224 hours, his probation is ended and report will be made accordingly to the department on Form 1835.

In this connection the attention of postmasters is directed to page 30 in the current annual Postal Guide for information concerning the three other kinds of official mail that are accorded special service.

DIVISION OF INTERNATIONAL POSTAL SERVICE

SPECIAL-DELIVERY SERVICE WITH THE BAHAMAS, EFFECTIVE MAY 1, 1929

Articles (registered and unregistered) in the regular mails (letters, post cards, printed matter, commercial papers, and samples) addressed for delivery in the Bahamas will be given the benefit of special-delivery service *when prepaid 20 cents, in addition to the regular postage*, by United States special-delivery or other stamps affixed to each article.

The envelopes or covers of articles intended for special delivery in the said country should have affixed labels reading "Expres (special delivery)." However, until a supply of the said labels can be secured from the Fourth Assistant Postmaster General, Division of Equipment and Supplies, the articles should in all cases be marked in red ink "Expres" directly below but never on the stamps.

Insufficiently prepaid articles intended by the senders for special delivery in the Bahamas, which are posted in letter boxes and drops, should be marked by postmasters "Not in special-delivery mail," and be dispatched onward to destination as ordinary mail matter whenever such articles can not be returned to the senders for the deficiency in fee without seriously delaying the dispatch thereof.

Articles mailed in the Bahamas which are intended for special delivery in this service will be subject to the same conditions in their delivery as special-delivery articles in the domestic service, attention being invited especially in this connection to section 1043, Postal Laws and Regulations, 1924, concerning the holding at the post office, to be called for by the addressee, of special-delivery mail which is registered and is believed to contain large sums of money or securities that can not be delivered without unusual risk.

PARCEL-POST SERVICE TO HUNGARY

The postal administration of Hungary advises that in many instances insured parcel-post packages are being received in that service not bearing the insurance number or the notation "Insured."

It is also said that frequently the number is written with an indelible pencil on a surface that has not been previously dampened as required by article 129, paragraph (b), on page 221 of the annual Postal Guide for 1928.

Postmasters will see to it that insured parcels for the country mentioned are properly prepared in order that reports of this nature may be obviated in the future.

PARCEL-POST PACKAGES FOR ST. PIERRE AND MIQUELON

This department has been advised of the receipt in open mail at Halifax, Canada, of parcel-post packages from the United States for St. Pierre and Miquelon.

Postmasters are, therefore, directed to send parcel-post packages for St. Pierre and Miquelon to the office of Boston to be included in closed mails made up by that office for St. Pierre and Miquelon.

DISPATCH OF LETTERS AND POST CARDS BETWEEN THIS COUNTRY AND GERMANY BY AIRSHIP "GRAF ZEPPELIN"

The German Postal Administration has just notified this department it is proposed to dispatch unregistered letters up to 20 grams in weight and post cards by the *Graf Zeppelin* on its trip to this country about the 15th of May.

The return flight of the *Graf Zeppelin* to Germany will be made from Lakehurst, N. J., on or about May 22. There will be accepted for dispatch by that flight unregistered letters weighing not more than 1 ounce each and unregistered post cards which are addressed for delivery in any European country and are prepaid \$1.05 for each letter and 53 cents for each single post card. These rates include the postage and the fee for the transportation by the *Graf Zeppelin*, and must be prepaid by means of United States stamps affixed to each article.

Articles to be dispatched by the airship named should be marked by the senders "By *Graf Zeppelin* from Lakehurst, N. J.," in the upper left-hand corner, and should be deposited in the mails in regular course.

Dispatch by the *Graf Zeppelin* can not be guaranteed. If the return flight is not made as expected articles marked for dispatch thereby will be dispatched by the ordinary means, unless they are endorsed, "Do not forward by steamship," and bear the return address of the senders, in which case they will be returned to the senders and the air-mail fee will be refunded on application through the office of mailing.

Articles to be dispatched by the *Graf Zeppelin* will be forwarded by the offices of mailing to the New York office to be held there until it is determined whether they shall be forwarded to Lakehurst, N. J., to be dispatched on the *Graf Zeppelin* on its return flight, or, if the return flight is not made, be otherwise disposed of.

No special cancellation or cachet will be used in connection with articles to be dispatched by this flight.

ERRONEOUS ACCEPTANCE OF INSURED ARTICLES IN THE INTERNATIONAL MAILS

This office is in receipt of information that postmasters in this service frequently accept for insurance articles destined for delivery in those foreign countries for which there is no provision for the exchange of articles under the insurance feature.

Postmasters will caution all clerks with regard to the matter and see that insured articles are accepted for the following countries only:

Austria, Canada, Cape Verde Islands, Great Britain and Northern Ireland, Hungary, the Irish Free State, Macao, The Netherlands, Newfoundland (including Labrador), Portugal (including Madeira and the Azores), Portuguese West Africa and the Straits Settlements.

POSTAL UNION TRANSIT STATISTICS

A statistical count will be taken of regular (Postal Union) mails dispatched during the period of May 1 to 28, 1929, which are not forwarded direct from the United States to the country of destination without the intervention of a foreign country or service.

As Newfoundland and St. Pierre and Miquelon are not parts of Canada, mails intended for the places mentioned should not be included in the sacks labeled to Canadian offices.

The regular mail articles for Newfoundland and St. Pierre and Miquelon should, during the statistical period of May 1 to 28, 1929, be sent to the office of New York or to the office of Boston according to which office offers the more expeditious means of onward forwarding to destination.

DIVISION OF FINANCE

NEW COUNTERFEITS

The Treasury Department furnishes the following descriptions of new counterfeit notes:

\$20 Federal reserve note.—On the Federal Reserve Bank of New York, New York; 1914 series; check letter C; face plate No. 316; back plate No. 1003; Frank White, Treasurer of the United States; A. W. Mellon, Secretary of the Treasury; portrait of Cleveland.

This is a photomechanical production printed on two sheets of paper between which coarse threads have been distributed in imitation of the genuine silk fiber. The numbering is printed in Gothic type face, unlike the style used in the genuine, and the letters "B" inclosing the serial numbers are executed out of line. The seal is lightly impressed on the note and printed in reverse, the text of the circular legend appearing backward. Specimen at hand bears serial No. B73221704B.

This counterfeit will deceive the unwary handler of currency.

\$20 gold certificate.—Series of 1922; check letter indistinct, probably F; face and back plate numbers missing; H. V. Speelman, Register of the Treasury; Frank White, Treasurer of the United States; portrait of Washington.

This is an extremely crude note printed from photomechanical plates on bleached genuine paper. The imperfections in the etching of this counterfeit are so marked that further description is unnecessary. The seal and numbering are printed in pale yellow and are barely visible, while the back is executed in a smudgy orange tone. Specimen at hand bears serial No. K69314490.

DIVISION OF CLASSIFICATION

PARCELS CONTAINING PLANTS ACCEPTED IN VIOLATION OF JAPANESE BEETLE AND
OTHER QUARANTINES

The United States Department of Agriculture has informed this office that a large number of parcels of plants and plant products were accepted for transmission in the mails during the past year in violation of the quarantines established by that department on account of the Japanese beetle and other injurious insect infestations or plant diseases. The reports show that the wrongful acceptance in the majority of the cases was due to negligence of window clerks to inquire as to the nature of the contents of the parcels when offered for mailing, or ignorance on the part of postal employees of the quarantine requirements.

The Department of Agriculture states that this is a very serious matter, since failure to comply with the prohibitions and restrictions of quarantine orders is likely to result in the spread of injurious insect infestations and plant diseases and thus lead to disaster of the first magnitude, and that in addition to the injurious effect on the agriculture of the region involved, would probably necessitate large Federal and State appropriations.

Postmasters and postal employees are, therefore admonished that all plant quarantine orders in effect in their respective States must be rigorously enforced, careful inquiry being made to ascertain the nature of the contents of parcels mailed, and close study made of the conditions governing all quarantines in effect in their particular State or county.

Postmasters must see to it that all window clerks in their offices are thoroughly instructed with respect to the requirements of the quarantines in effect in their particular locality, and if any plant material should be accepted in violation of such quarantines must take suitable action to prevent a repetition.

FORMS 3540 AND 3548 NOT BEARING NAMES OF POST OFFICES SENDING THEM

Notwithstanding postmasters have been cautioned again and again about negligence in the preparation of card Forms 3540 and 3548, when notifying persons with regard to mail held for postage, the department continues to be embarrassed by complaints from the addressees of such cards to the effect that they are not properly filled out, that is, the name of the post office from which they are sent is not shown, and the cards are either illegibly postmarked or not postmarked at all. The numerous notices concerning incomplete Forms 3540 and 3548, which it is necessary to publish in the monthly supplements to the Postal Guide indicate the degree of carelessness shown in the matter.

In order to prevent the sending of any more Forms 3540 and 3548 without bearing the name of the post office from which sent, the entire stock of the forms now on hand at all second, third and fourth class offices should at once have the name of the office and State legibly hand stamped or written in the proper place on the message side of the forms, and when new supplies are received they should be immediately hand stamped or written up in the same manner.

At first-class offices a full month's supply of these forms should be similarly prepared in advance, and postmasters should see to it that the supply is replenished at certain designated intervals.

Furthermore, these cards must be carefully postmarked before being dispatched so that the name of the office sending them will be clearly and legibly shown.

It is obvious that if a card fails to show the name of the sending post office, either in the postmark or elsewhere, no action can be taken by the person receiving the notice and this causes dissatisfaction and annoyance.

All postmasters are again admonished to see that all card Forms 3540 and 3548 are carefully and completely filled out, so that embarrassment and criticism may be avoided.

Form 3540 has been sent to N. Sokoloff, 1812 Cardwell Avenue, Cleveland Heights, Ohio, in regard to an undeliverable parcel of printed matter addressed to N. Sokoloff which is held for 13 cents postage. The card does not bear the name of the post office and State and does not bear any postmark.

The postmaster at the office from which the notice above described was sent will promptly communicate with the addressee and inclose a new notice completely and properly prepared.

DIVISION OF STAMPS**SPECIAL ISSUE OF STATE OVERPRINTED STAMPS**

Postmasters and employees of the Postal Service are notified that arrangements have been completed to begin the issuance of special overprinted postage stamps in sheet form in denominations of 1 to 10 cents, inclusive, to post offices in Kansas and Nebraska, for placing on sale to the public. The surcharge, representing the respective State abbreviations, will appear in black ink across the lower half of the stamps.

The overprinted-style stamps will be issued to all post offices in the above-named States with the exception of Kansas City, Topeka, and Wichita, Kans., Omaha and Lincoln, Nebr., where ordinary postage stamps will be continued on sale for local use.

Postmasters at direct-accounting post offices in the above-named States, with the exception of Kansas City and Wichita, Kans., and Lincoln, Nebr., are directed to submit a special requisition promptly to the department for such quantities of overprinted sheet stamps in denominations of 1 to 10 cents, inclusive, as will be required for a year's supply if storage space is available.

District post offices in Kansas and Nebraska will be supplied with surcharged stamps from their respective central accounting office in the filling of requisitions as soon as the stock is available.

Postmasters are further advised that State overprinted stamps should not be used for precanceling purposes. Sufficient stocks of ordinary stamps should be provided to meet such requirements when postmasters are authorized to have stamps precanceled by local printers.

Until otherwise directed the following general rules will govern the sale and use of the State surcharged stamps:

1. The stamps will be placed on sale only at post offices within the respective States, but they will be valid for postage purposes at all post offices now using ordinary United States stamps.

2. The supplies of ordinary unsurcharged stamps remaining on hand in post offices in the above-named States will continue to be used until exhausted. No official first date of sale will be designated for any post office supplied with the surcharged stamps.

3. Postmasters at offices supplied with special surcharged stamps will not accept mail orders for such stamps from outside the State except as may be specifically authorized by the department when needed for use on advertising matter that is to be sent to post offices in Kansas and Nebraska for mailing.

4. For the benefit of stamp collectors the State surcharged stamps will be placed on sale in the philatelic agency on May 1, 1929. Owing to the large number of denominations of surcharged stamps, the agency will be unable to accept first day covers from collectors for stamping and mailing on May 1.

5. The filling of orders will be greatly facilitated if collectors will eliminate other varieties of stamps from their first orders for State surcharged stamps. All orders will be filled in regular turn of receipt.

While every reasonable effort will be made in the agency to fill orders with well-centered stock, the limited quantities of the State surcharged stamps printed will prevent as close selection being made as is possible with ordinary stamps.

CREDIT FOR DECREASE IN VALUE OF STAMPED ENVELOPES

Postmasters at direct and central accounting post offices who are still due credit for the decrease in value of stamped envelopes and newspaper wrappers received in April and charged on March invoices at the old prices, or for the decrease in value of stamped paper at district post offices reported too late for credit to be claimed in the central accounting postmaster's account for the March quarter, may claim credit for the difference in price by appropriate entries in item E of their June quarter stamp accounts.

RESUBMITTED REQUISITIONS FOR SPECIAL-REQUEST ENVELOPES NOT TO BE MARKED "DUPLICATE"

In resubmitting requisitions to the department for special-request envelopes that have been returned for correction or for other reasons, postmasters at direct and central accounting post offices are requested to refrain from marking the returned requisition "Duplicate." The indorsement "Duplicate" should be restricted entirely to cases where stock previously ordered is overdue and a second requisition bearing the same date as the original is submitted, as provided in paragraph 61, page 40, of the July, 1928, Postal Guide. Strict compliance with this rule at all direct and central accounting post offices will greatly facilitate the filling of printed envelope orders.

DIVISION OF REGISTERED MAILS

LEGIBLE NUMBERING OF REGISTERED MAIL

It has again been brought to the attention of the department that the numbers on registered articles are frequently illegible. Postmasters are therefore again enjoined to take the matter up with the postal employees involved, with a view to having registered numbers written legibly. Care should be taken to see that all registration numbers, whether written or stamped with numbering machine, are clear and unmistakable. Carefully note article 35, page 119, of the July, 1928, Postal Guide, and the notice published on page 23 of the September, 1927, Supplement, under the caption, Legible Numbering of Registered Mail.

MANNER OF SIGNING REGISTRY DISPATCH RECEIPT CARDS, FORM 3830, AND MANIFOLD BILLS, FORMS 3851-2-3-4

Section 1060 of the Postal Laws and Regulations states that receipts given by postal employees for registered mail shall be written, not stamped, and when conditions require it the initials of the receiving employee may be omitted except when two employees in the post office or railway post office have the same surname.

All postal employees are advised that this section does not permit the use of the initials only, even in connection with stamped signatures, in receipting for registered mail on registry dispatch receipt cards Form 3830 or manifold registry dispatch bills (Forms 3851-2-3-4). The receipts given for such mail shall show, in writing, the surname as well as the initials of the postal employee or employees receipting for the registered matter except that when conditions make it advisable to do so the initials of the employee or employees giving the receipt need not be written in connection with the surname unless there are two employees in the post office or railway post office having the same surname in which case the initials of the employee must precede the surname.

**FORM 3540 COVERING AN INSURED PARCEL NOT BEARING NAME OF POST OFFICE
SENDING IT**

This office is in receipt of card Form 3540 addressed to the Bell Jewelry Co., Washington, N. C., advising them that insured parcel No. F-354, addressed to Miss Cathleen M. Pike, is unclaimed and is being held for 10 cents postage. The card does not bear the name of the post office sending it nor the State in which located and does not bear any postmark.

The insured parcel involved was addressed for delivery at Tarboro, N. C., but it has not been received at that office.

The postmaster holding the above-described parcel will forward the parcel to the addressee at Tarboro, N. C., and will advise the Third Assistant Postmaster General, Division of Registered Mails, when such action has been taken, referring to file No. 27676-Y.

**FAILURE TO INDORSE C. O. D. MONEY ORDERS WITH THE NUMBERS OF THE RELATED
C. O. D. PARCELS**

Numerous reports are being received by this office of the omission of the numbers of C. O. D. parcels from C. O. D. money orders, which indicate that repeated cautionary instructions issued in regard to the importance of indorsing C. O. D. money orders with the related C. O. D. parcel numbers have not had the desired effect in curbing carelessness in this respect.

The department fails to see any valid reason for the existence of a condition of this character, since each money order is provided with an allotted space for the indorsement of the C. O. D. parcel number, and the only conclusion to be reached is that postmasters and supervisors have not given this matter the corrective attention it warrants to secure uniform and strict observance of the provisions of article 148, page 146, of the July, 1928, Postal Guide, the pertinent provisions of which are quoted below:

"The number of each C. O. D. parcel must be placed in the space provided for that purpose on the money order issued in payment of the charges thereon. If an extra coupon is attached to the C. O. D. tag to be returned to the sender with the money order, it must be inclosed with the remittance."

It is imperative, in the interest of rendering the character of postal service expected by mailers of C. O. D. parcels, that this situation, which is of considerable annoyance to postal patrons concerned, shall be remedied at once, and the department requests the postmaster at every money-order post office to give this matter his personal attention.

“Customs declarations must be precise and fully detailed and the particulars as regards each article must be shown (a) the value, (b) the gross weight, (c) the net weight, (d) name of country of origin, and (e) the authentic signature of the sender. When the parcel contains articles of different kinds, the exact quantity and value of each kind must be indicated. Instead of bearing the entries such as “groceries,” “presents,” etc., when the contents consist of such articles as sugar, sweets or confectionery, crystallized and imitation fruits and flowers, preserved ginger, jams, jellies, marmalades, chocolates, condensed milk, milk powder, the exact weight and full description of each article should be given. In the case of dried fruits, the particular kind—figs, raisins, currants, etc.—should be stated.

“If there is not sufficient space on the customs declaration to indicate fully all necessary particulars, such details may be written on the cover of the parcel. Reference should, however, be made to this fact on the customs declaration itself.

“Parcels containing watches or automobile accessories exceeding £3 in value, and parcels containing cloths exceeding £6 in value should be accompanied by an invoice.

“Invoices may be enclosed in parcels or within the packets sent by letter mail on the condition that the fact is mentioned on the customs declaration (where there is one).

“Original certificates concerning living plants should be addressed to the Secretary, Department of Agriculture, Dublin, before the parcel itself is mailed. A copy of the certificate should be attached to the parcel containing the plants.

“Other certificates, permits to import, etc., may be inserted in the packets or attached thereto.

“The following charges are levied: (a) A minimum customs duty of 60 cents on every single class of dutiable goods contained in one packet or parcel, (b) a delivery fee of 12 cents on every parcel liable to customs duty.

“Cinematograph films must be well packed in a tin case inclosed in a strong wooden box and, if the lid or bottom or any of the sides of the box are composed of more than one piece of wood, they must be tongued and grooved. A lining of suitable material must be placed between the upper edges of the box and lid, and the lid must be firmly screwed down. A white label bearing the word ‘Films’ in plain black letters must be affixed to the packet.

“The use of hay and straw of any description as packing for parcels (including straw envelopes used in wrapping bottles) is forbidden.

“The importation of saccharine and substances of an analogous nature is admitted only through the ports of Dublin and Cork.

“The counties comprising the Irish Free State are as follows: Carlow, Cavan, Clare, Cork, Donegal, Dublin, Galway, Kerry, Kildare, Kilkenny, Kings (or Offaly), Lietrim, Leix (or Queens), Limerick, Longford, Lough, Mayo, Meath, Monaghan, Offaly (or Kings), Queens (or Leix), Roscommon, Sligo, Tipperary, Waterford, Westmeath, Wexford, and Wicklow.

“The name of the county and the delivery office must form a part of the address of all mail articles.

“Parcel-post packages from the Irish Free State which are refused must be returned at once from the post office of destination to the United States exchange office from which they were received, marked ‘Refused.’ ”

CHANGE No. 160 (Lithuania, pp. 365 and 366).

Parcels weighing more than 11 pounds but not more than 22 pounds are subject to a transit charge of \$5.16 in addition to the postage rate of 14 cents per pound or fraction thereof.

Both postage rates and transit charges must be prepaid by postage stamps affixed to each parcel at time of mailing.

CHANGE No. 163 (Persia, pp. 406 and 407).

Appropriate changes indicated should be made in the item Persia—Parcel Post on pages 406 and 407.

This office has been informed that dutiable articles are prohibited in the letter mails to the Nonfederated Malay State of Trengganu.
