ORDERED, That, in accordance with the provisions of the Act of Congress approved July 2, 1909, relative to the Thirteenth Census, section 513 and paragraph 4 of section 801, and the third paragraph of the note under section 801, of the Postal Laws and Regulations, as amended by Order No. 2923, dated February 23, 1910, be, and the same are hereby, amended to read, respectively, as follows:

SEC. 513. All mail matter, of whatever class, relating to the census, and addressed to the Census Office, or to any official thereof, and indorsed "Official business, Census Office," shall be transmitted free of postage, * * * and so marked: *Provided*, That if any person shall make use of such indorsement to avoid the payment of postage * * * on his or her private letter, package, or other matter in the mail, the person so offending shall be guilty of a misdemeanor and subject to a fine of three hundred dollars, to be prosecuted in any court of competent jurisdiction. (Act of July 2, 1909, ch. 2, sec. 29.)

POUCH RECORDS ON RAILROAD TRAINS.

APRIL 19, 1910.

Order No. 3052.

Section 1187, Postal Laws and Regulations of 1902, as amended, is hereby further amended to read as follows:

SEC. 1187. Railroad companies will require their employees who handle the mails to keep a record of all pouches due to be received or dispatched by them, and to check the pouches at the time they are received or dispatched, except that no record need be kept of a single pouch from a train or station to the post office or from the post office to a train or station which, in regular course, is the only pouch in the custody of the company's employees at that point while it is being handled by them. This is not to be construed as relieving railroad companies from having employees on trains keep and properly check a record of all closed pouches handled by them, without exception.

2. In case of failure to receive any pouch due, a shortage slip should be made out, explaining cause of failure, and forwarded in lieu of the missing pouch. Specific instructions in regard to the use of shortage slips will be given by the General Superintendent of Railway Mail Service.

3. Every irregularity in the receipt and dispatch of mail should be reported by the employee to his superintendent promptly, and if a probable loss of or damage to mail is involved, or if the cause of failure to receive a pouch is not known, the report should be made by wire, and the superintendent will notify the division superintendent of Railway Mail Service without delay. A copy of the employee's report should be attached to and become a part of the permanent pouch record.

4. Train pouch records will be kept on file at the headquarters of division superintendents of railroad companies for at least one year immediately following the date the mail covered by them was handled, and shall be accessible there to post office inspectors and other agents of the Post Office Department. Station pouch records will be kept on file at the station to which they apply for at least one year immediately following the date the mail covered by them was handled, and shall be accessible there to post office inspectors and other agents of the Post Office Department.

5. Railroad companies will require their employees to submit pouch records for examination to post office inspectors and other duly accredited agents of the Post Office Department upon their request and exhibition of credentials to such employees.

DISEASED TISSUES IN THE MAILS.

APRIL 22, 1910.

Order No. 3064.

Section 495, Postal Laws and Regulations, is hereby amended to read as follows:

Specimens of diseased tissues may be admitted to the mail for transmission to United States, State, municipal, or other laboratories in possession of permits referred to in paragraph 3 of this section only when inclosed in mailing cases constructed in accordance with this regulation: *Provided*, That bacteriologic or pathologic specimens of plague and cholera shall, under no circumstances, be admitted to the mails.

2. Liquid cultures, or cultures of micro-organisms in media that are fluid at the ordinary temperature (below 45 C. or 113 F.) are unmailable. Such specimens may be sent in media that remain solid at ordinary temperature.

3. No package containing diseased tissue shall be delivered to any representative of any of said laboratories until a permit shall have first been issued by the Postmaster-General certifying that said institution has been found to be entitled, in accordance with the requirements of this regulation, to receive such specimen.

4a. Specimens of tubercular sputum (whether disinfected with carbolic acid or not disinfected) shall be transmitted in a solid glass vial with a mouth not less than one inch in diameter and capacity of not more than two ounces, closed by a cork stopper or by a metallic screw top protected by a rubber or felt washer. Specimens of diphtheria, typhoid or other infectious or communicable diseases or diseased tissues shall be placed in a test tube made of tough glass, not over one-half inch in diameter and not over three and one-half inches in length, closed with a stopper of rubber or cotton and sealed with paraffine or covered with a tightly-fitting rubber cap.

b. The glass vial or test tube shall then be placed in a cylindrical tin box made of I. C. bright tin plate, with soldered joints, closed by a metal screw cover with a rubber or felt washer. The vial or test tube in this tin box shall be completely and evenly surrounded by absorbent cotton closely packed.

c. The tin box with its contents must then be inclosed in a closely-fitting metal, wooden or papier-mache block or tube, at least 3-16 of an inch thick in its thinnest part, of sufficient strength to resist rough handling and support the weight of the mails piled in bags. This last tube to be tightly closed with a metal screw cap.

5. Specimens of blood dried on glass microscopic slides for the diagnosis of malaria or typhoid fever by the Widal test may be sent in any strong mailing case which is not liable to breakage or loss of the specimen in transit.

6. Upon the outside of every package of diseased tissues admitted to the mails shall be written or printed the words "Specimen for bacteriological examination. This package to be pouched with letter mail. See section 495, P. L. and R."

The following notices were issued from the bureau of the Second Assistant Postmaster General — Joseph Stewart, Second Assistant:

NOTICES AS TO FOREIGN MAILS.

LETTERS DESTINED FOR TRIPOLI.

MARCH 26, 1910.

Letters destined for Tripoli are frequently missent because of inaccuracy in the address — the fault of the writers.

There are three Tripolis in countries bordering on the Mediterranean, namely, one in Syria, one in Greece and one in Northern Africa. In the case of an article for either of the three the name of the country should be stated in the address, and in case of an article intended for Tripoli in Northern Africa its destination should be stated as "Tripoli-in-Barbary," North Africa.

Postmasters will cause as wide publicity as possible to be given to the foregoing.

PARCELS FOR ITALY.

APRIL 12, 1910.

Postal officials are informed that the prohibition against the sealing of parcel-post packages for foreign countries generally does not apply to "parcels" for Italy.

Consequently, parcels for Italy must be accepted for mailing, even though sealed and closed against inspection, provided they conform to the other conditions prescribed on pages 171-174 of the Postal Guide for July, 1909.

DIPLOMATIC DISPATCH POUCHES—REPUBLIC OF HONDURAS AND ITS LEGATION IN WASHINGTON.

APRIL 15, 1910.

The Department has arranged for an exchange of closed diplomatic dispatch pouches between the Government of the Republic of Honduras and its Legation in Washington. It is ordered that clerks in the Railway Mail Service shall promptly forward intact any such pouches received by them.

SHORT-PAID LETTERS FOR FOREIGN COUNTRIES.

APRIL 25, 1910.

The Department is advised that many letters mailed in the United States addressed for delivery in foreign countries, which are subject to our Postal Union postage rate, are prepaid only two cents; the senders of the letters being under the impression, it is presumed, that our two-cent domestic postage rate is applicable to said letters.

The only foreign countries to which the two-cent letter rate applies are Canada, Cuba, Mexico, Newfoundland, the Canal Zone, the Republic of Panama, the city of Shanghai China, Germany (by direct steamers only), England, Scotland, Wales and Ireland. To all other countries the rate is five cents for the first ounce or fraction thereof, and three cents for each additional ounce or fraction thereof, which must be fully prepaid or the letters become liable on delivery to a charge equal to *double* the amount of the deficient postage. For instance a single-rate letter prepaid only two cents would be subject on delivery to an additional postage charge of six cents.

As charges for postage due on short-paid letters give rise to much complaint, postmasters are directed to caution the patrons of their offices respecting the matter and to give this notice the widest publicity possible.

SURPLUS MAIL EQUIPMENT.

APRIL 6, 1910.

The attention of postmasters is again called to the necessity for complying strictly with Section 1352, Postal Laws and Regulations, in regard to promptly forwarding to the designated depositories all surplus equipment.

All equipment not actually needed in the regular dispatch of mails must be shipped each day and not held for a week or more to make up a full sack or to meet "unforeseen contingencies."

The above does not refer to shipments by freight from regularly designated shipping points.

It is the duty of all supervisory officials when visiting post offices to see that this regulation is strictly enforced.

The following notices and instructions were issued from the bureau of the Third Assistant Postmaster General — A. L. Lawshe, Third Assistant:

NO. 4 ONE-CENT POSTAL CARDS IN SHEETS.

APRIL 21, 1910.

Postmasters are notified that the new No. 4 one-cent postal card will be issued in sheets of 30 cards each, for printing purposes, instead of sheets of 16 cards as announced in paragraph G, page 8 of the February, 1910, Supplement to the Postal Guide.

The sheet cards will be packed in cases of 12,000 cards. Requisitions should be drawn for that quantity or multiples thereof, the word "sheets" to be plainly written on Form 3201, opposite the item.

Purchasers of cards in sheets should be advised that to be valid for postage they must be cut to regulation size, 3¼ by 5¼ inches.

INSTRUCTIONS AS TO REGISTERED MAILS.

FREE REGISTRATION OF CENSUS MAIL.

APRIL 25, 1910.

Paragraph "(2)" under the heading "Free Registration of Official Mail," page 13 of the August, 1909, Official Postal Guide, relative to free registration of mail addressed to the Census, is hereby amended to read as follows:

(2) Matter mailed anywhere in the United States and by anyone, relating to the Census and addressed to the Census Office, or to any official thereof, when indorsed "Official business, Census Office."

See amended paragraph 4, Section 801 of the Postal Laws and Regulations, published in this (May 1910) Official Postal Guide.

SPECIAL OFFICIAL REGISTRATION ENVELOPES AND LABELS.

APRIL 25, 1910.

Arrangements have been made for the preparation and dispatch of official registered mail under cover of specially-printed registration envelopes or labels at offices other than Washington, D. C., in the same manner as is permitted from that office under Section 820 of the Postal Laws and Regulations. The use of these specially-printed envelopes or labels precludes the necessity of using registered package or tag envelopes in the preparation or dispatch of this mail from post offices as is usually required by Sections 818 and 819 of the Postal Laws and Regulations. Official matter presented for registration under cover of these specially-printed envelopes or labels should be dispatched intact as received, without being inclosed in registered package envelopes or having tag envelopes attached thereto.

In delivering registered mail inclosed in these envelopes or having these labels attached, the envelopes or labels must not be separated from the matter, but must be delivered intact as addressed.

The several Executive Departments, Bureaus thereof, and Independent Government Institutions at Washington, D. C., have provided uniform official registration envelopes and labels for use both at Washington, D. C., and at places outside of Washington where official matter is registered.

When official matter is mailed elsewhere than at Washington, D. C., the use of these envelopes and labels does not permit the free registration of the mail with which they are used, except in those cases specially provided for and specifically mentioned on page 13 of the August, 1909, Official Postal Guide, as modified by amended paragraph 4, Section 801, of the Postal Laws and Regulations, printed in this (May, 1910), Postal Guide. No return receipts will be furnished for mail dispatched under these official envelopes or labels unless the sender indorses the articles "Return receipt demanded."

Official mail presented for registration without cover of these specially-printed envelopes or labels must be inclosed in registered package envelopes or have registered tag envelopes attached thereto (as may be proper) as prescribed in Sections 818 and 819 of the Postal Laws and Regulations, except in those cases where specific authority has been, or may hereafter be, given for the omission of registered package or tag envelopes in the preparation of registered mail for dispatch.

TAGS (FORM 3821) FOR USE IN LABELING LEAD-SEALED REGISTERED SACK ENVELOPES.

APRIL 25, 1910.

Referring to information printed on pages 13 and 14 of the August, 1909, Postal Guide, under the caption "Registered Sack Jacket Tags for use in Labeling Lead-sealed Registered Sack Jackets," postmasters are informed that a limited number of *sack envelope tags, Form 3821*, are now on hand in the Office of the Fourth Assistant Postmaster General (Division of Supplies), and will be furnished to postmasters authorized to use them.

All postmasters authorized to use lead-sealed sack jackets are also authorized to use lead-sealed sack envelopes.

Postmasters having use for *sack envelope tags (Form 3821)* will make a request for a limited number in their next regular requisition upon the Fourth Assistant Postmaster General (Division of Supplies).

NEW FORM OF REGISTRY NOTICE, FORM 3849, FOR THE USE OF CITY AND RURAL CARRIERS.

APRIL 25, 1910.

A new form of registry notice, Form 3849, for the use of city and rural carriers has been prepared and a supply of same is now on hand in the Office of the Fourth Assistant Postmaster General (Division of Supplies), subject to requisition.

This form is specially designed for use by city and rural carriers and must be prepared and left by them at the addressee's residence, place of business, or mail box, when a registered article is not delivered and another attempt to deliver is to be made.

These notices are to be filled in showing the carrier's district or route number, the name of the post office (or station) with which the carrier is connected, the hour and the date of service, the number or numbers of the registered letters or parcels, the name of the addressee, the hour (and date when different from the date of service) when next trial of delivery will be made, and the signature of the carrier.

This form (No. 3849) will hereafter be used by carriers on rural routes in lieu of Form 1525, but must not be used at post offices in lieu of Form 1525 or Form 3849-A when notices are prepared to be mailed to addressees under cover of official envelopes or placed in the addressee's call or lock box.

Therefore postmasters at all offices having either city or rural carriers are hereby authorized to use this carrier registry notice (Form 3849), and instructed to make requisition for a limited supply thereof on the Fourth Assistant Postmaster General (Division of Supplies), in their next regular requisition. No more of these forms should be ordered in the initial supply than will cover the needs of any post office for a longer period than three months.

AUTHORIZATION FOR REGISTERED STATE POUCHES, SACKS AND JACKETS.

APRIL 19, 1910.

When the quantity or bulk of registered mail addressed for delivery in any State or Territory justifies, authority is hereby given postmasters and railway postal clerks (in railway post offices and terminal railway post offices) to dispatch such mail in pouches and sacks closed with rotary locks, and in lead-sealed and paper jackets, addressed simply to a State or Territory by name only (for example, "Alabama"), in accordance with the following limitations and instructions:

1. The making up of State pouches, sacks and jackets must not be commenced by any postmaster or postal clerk until he has received schemes and direction to do so from the proper officer of the Railway Mail Service.

2. The preparation and treatment of State pouches, sacks and jackets will be in accordance with the rules and regulations governing through registered pouches, sacks and jackets addressed to post offices, railway post offices, and terminal railway post offices, as far as applicable. State pouches, sacks and jackets will be opened, checked, bills for contents signed, and contents distributed by the employees of the Railway Mail Service authorized to take such action. The State pieces will be handled in transit in the same manner as through pouches, sacks and jackets, and must not be opened except by those specifically authorized.

3. This authority in no way contemplates any exceptional treatment of registered mail other than its dispatch in pouches, sacks or jackets labeled direct to States or Territories, and must not be construed to permit exceptional dispatch of registered mail in iron-locked pouches or the making up of lead-sealed sack jackets or sack envelopes, except as has already been or may hereafter be specifically authorized by the Third Assistant Postmaster General.

4. Postmasters and railway postal clerks authorized to make regular dispatches of through pouches or inner sacks labeled to post offices, railway post offices, or terminal railway post offices, will continue to do so, and are enjoined to report all cases in which the dispatch of State pouches, sacks or jackets so depletes the quantity of registered mail involved in their regular dispatches as to render the latter no longer necessary or advisable, in order that appropriate action may be taken for the discontinuance of the regular exchanges or dispatches affected.

5. Not-regular dispatches of inner sacks and jackets will also be continued whenever the quantity or bulk of registered mail for any post office, railway post office or terminal railway post office warrants.

6. Not-regular dispatches addressed to post offices may be billed and inclosed in the proper State pouch or sack, and one or more State sacks or jackets may be billed and inclosed in a State pouch, sack or jacket addressed to the same State, when at least one record and handling in transit is saved thereby.

7. Rotary locks, registered pouches and sacks used in these dispatches should be disposed of in accordance with the instructions heretofore published for disposition of such locks, pouches and sacks in not-regular dispatches.

8. The orders heretofore published for bulk billing of second, third and fourth class registered matter dispatched in pouches, sacks or jackets are to be observed in making dispatches of such classes of mail in State pouches, sacks and jackets.

**DISCONTINUANCE OF THE POST OFFICE REGISTRY TRANSFER STATION AT
HARRISBURG, PA.**

APRIL 1, 1910.

Because of the establishment of a Terminal R. P. O. at Harrisburg, Pa., the separate registry transfer station heretofore attached to the post office at that place has been discontinued; therefore the words "Harrisburg, Pa.," in the list in paragraph 65, on page 75 of the July, 1909, Postal Guide, showing the names of post offices having separate stations for handling transit registered mail, should be stricken out.

The following instructions were issued from the bureau of the Fourth Assistant Postmaster General — P. V. DeGraw, Fourth Assistant:

**DEMURRAGE AND STORAGE CHARGES—POSTAL EMPLOYEES PERSON-
ALLY LIABLE FOR PAYMENT WHEN NEGLIGENCE INVOLVED.**

All postal employees who through negligence allow storage or demurrage charges to accrue on freight shipments will be held personally responsible for such charges and will be required to pay them from their personal funds. ‡ To correct July, 1909, Guide.

LATEST CHANGES IN POST OFFICES.

JUNE 1 TO APRIL 25, 1910.

NOTE.—This list, taken in connection with the list of offices in the GUIDE for July, 1909, shows the offices in operation. Former monthly lists should be disregarded, as reference to them can only confuse.

Post offices marked with an asterisk (*) have been established since the publication of the July GUIDE, and afterwards discontinued, or names changed; those with a dagger (†) are Presidential; those with a double dagger (‡) post offices discontinued for the winter; those with parallel (||) discontinued for the summer, and those with a section mark (§) where discontinuance has been rescinded.

Independent Stations are the only stations to which Postmasters address Registered Package envelopes. In the list of corrections A. refers to General Alphabetical list, and S. to State list and C. to County list. R.D. signifies Rural Delivery.
